

**HOW MUCH DO  
REPLACEMENT WINDOWS  
COST?**

## Window Replacement Cost & Price Guide: Vinyl Replacement Windows

Trying to decide on which vinyl replacement windows are best for you can be a strenuous task. We want to give you an honest and reliable cost on replacement windows when budgeting or planning for your project

If your windows are hard to open, drafty, or foggy it may be time to replace them. When it comes to replace them the most common question asked is, how much is it going to cost. When it comes to vinyl replacement windows there are many styles and options to choose from. In general, you can expect to spend anywhere from \$500.00 – \$1,800.00 per window depending on the window type and quality you chose to have installed. Understanding the factors that influence the cost of a window replacement will aid you in determining which options are right for you. Things that contribute to the cost of vinyl replacement windows are:

- **Window Series**
- **Window Style**
- **Major factors that impact the cost of vinyl replacement windows**

### Window Series:

When budgeting for a vinyl window replacement project the series of window selected will have a direct impact of the cost of the new window. Most window replacement companies, and major window manufactures offer windows in a 3 different series. Entry level, Mid-level, and Premium level.

#### **Entry Level:**

**COST: \$525.00 - \$900.00 per window installed**

This series of window is comparable to a builder grade window. It great for homeowners looking for a reliable cost friendly window, or some value to a home so they may get a quick rate of return on their purchase. The is type of window often comes in a limited number of colors. Also having a limitation on glass, grids, lock, and screen options. While they will increase energy efficiency it will not be as drastic as some of the other series available.

#### **Mid-Level:**

**COST: \$750.00 - \$1,100.00 per window installed**

Windows that fall in this series are a great option for homeowners looking for great function, performance, and some customizable options. This series of replacement windows is typically available in multiple colors. It is offered with options pertaining to glass, grids, locks, and screens. They can be specifically manufactured to the energy efficiency levels you are looking to reach in your home.

#### **Premium Level:**

**COST: \$900.00 - \$1,800.00 per window installed**

A window found in this series is the option homeowners are looking for when they are seeking beauty, function, performance, and security. Vinyl windows in the premium level are not only available in multiple colors but finishes as well. With fully customizable glass, grids, locks, and screens this window has all the bells and whistles. You can reach the highest level of energy efficiency with this series as well.

## Window Styles:

The style of window will affect the cost of your window replacement project as well as the labor required to install the window. Below is a comparison chart with window style cost and labor difficulty required:

<b>WINDOW STYLE COMPARISON CHART</b>	<b>COST</b>	<b>LABOR REQUIRED</b>
	\$ - LOWEST	🔨 - LOWEST
	\$ \$ - MODERATE	🔨🔨 - MODERATE
	\$ \$ \$ - HIGHEST	🔨🔨🔨 - HIGHEST

STYLE	COST	LABOR REQUIRED
DOUBLE HUNG	\$	🔨
CASEMENT	\$ \$	🔨🔨
SLIDER	\$	🔨
PICTURE	\$ \$	🔨🔨
GARDEN	\$ \$ \$	🔨🔨🔨
HOPPER/AWNING	\$	🔨
BAY	\$ \$ \$	🔨🔨🔨
BOW	\$ \$ \$	🔨🔨🔨
SHAPES	\$ \$ \$	🔨🔨

When selecting what style or styles of window you would like to use for your project it is important to understand the not only the differences between them but the features and function they offer. Below are the different window styles available as well as a description of the windows qualities and functionality:

## Window Style:

### **Double Hung:**

Both upper and lower sashes are operable and tilt in for easy cleaning. This style is most common and cost effective.

### **Casement:**

Hinged on the side, this window is open and closed with a crank. With the added parts and engineering involved with the operation of this window there is an added cost for this option.

### **Slider:**

Sashes operating from either left to right, or right to left, this window is common in many homes. Making it a budget friendly option.

### **Picture:**

A fix panel, or non-operable window often used in larger openings. Making the window cost a little higher for this option.

### **Hooper/Awning:**

A manually operated window that opens from the top or bottom. Although this is typically the window has the lowest cost it is only used in specific applications.

### **Garden:**

Combining the features of the casement window and the picture window. With the size and components used it this window there is an added cost for this option.

### **Bay:**

Made up of three panels. The center panel being a fixed picture window with the side being either double hung windows or casements windows. The size and complexity of this window option has an added cost associated with it.

### **Bow:**

Consisting of four or more panels. Panel options include double hung, casement, and picture windows. The multiple options will add additional costs for this window.

### **Shapes:**

Coming in different and custom shapes, this window is specifically designed to the home. This being a custom window you can expect an added cost when purchasing this option.

## Major Factor that will impact the cost of vinyl replacement windows:

### Window Options:

The options you choose when selecting your windows for your project will have a direct impact on the total cost, these options include:

- **Colors & Finishes:**

Including custom colors as well as textured finishes you can expect an added cost between **\$150.00-\$800.00 per window.**

- **Glass:**

This will include the type of coating on the window for added energy efficiency. Also, any type of privacy or decorative glass that you may want. Added cost can be between **\$100.00-\$500.00 per window.**

#### PRIVACY GLASS

#### ComforTech DLA-UV-HC R-VALUE OF 5

- **Grids:**

With multiple colors and styles to choose from you can expect an added cost to between **\$50.00 - \$250.00 per window.**

- **Locks & Hardware:**

Matching the color you choose for your window replacement, or selecting an upgraded brass, nickel, or bronze option added costs can be between **\$25.00-\$125.00 per window.**

- **Internal Blinds:**

Available in a variety of colors. This option comes with an added cost between **\$200.00-\$800.00 per window.**

## Window Scope of Work:

- Installation:

The more detailed or time consuming the installation process is for your window replacement contractor the more the labor will affect the cost. This can include the existing type of windows being removed, size of window, location of window, style of window, interior trim being replaced, exterior trim being replace, and custom capping used. Vinyl window replacement labor can cost between **\$120.00-\$800.00 per window.**
